

rapidcount S 85

Magnet code testing at an unbeatable price

Ensures precise counting results

Counts without pre-sorting

Top model with maximum security

rapidcount S 85

Banknote counting machine

The novelty from ratiotec: the rapidcount S 85 with magnet code recognition! The professional machine will convince you instantly. High degree of security and precise counting results distinguish the rapidcount S 85. The magnet code recognition enables a precise definition of the value of the banknotes and is a nearly counterfeit-

proof testing method. The machine recognises and evaluates the inserted banknotes without pre-sorting. Simply insert the mixed bills: you receive the counting results quickly and without problems. In the clear display you are shown the number and the value of the inserted banknotes. During the counting procedure, the machine reliably tests the additional security features of Euro banknotes. This comprehensive combination testing and the magnet code testing offer **maximum protection** from counterfeit money.
